User manual (Android)

1. Pairing your PTT-Z with cellphone

Power on cell phone Bluetooth setting.

Power on BC1-L0PP. Pair it on the cellphone.

Go to WiderBridge APP and it's ready to go.

2. Change PTT-Z pairing to a new phone:

- In phone A, forget(un-pair) the PTT-Z in "Setting" -> "Bluetooth"
- Turn on PTT, make sure it is **NOT** connected to any phone.
- Press PTT button for 10 seconds then release.
- Phone B now can scan the PTT-Z button, pair and connect the PTT.
